

Fire/EMS Technology

Fire/EMS Technology is for students who want to pursue a career as a firefighter or emergency medical technician. This program allows students to gain real-world experience in the areas of fire science and EMS. Students who successfully complete this program will have the opportunity to earn a Firefighter I, Firefighter II and EMT Basic certification. You'll learn how to safely manage fire within structures by actually entering into a controlled burn atmosphere in your senior year. Students will also gain hands-on experience performing actual patient care through EMS clinical field experience that will also be completed during the senior year.

SKILLS LEARNED:

- Fire suppression
- Search and rescue
- Hazardous materials response
- Vehicle extrication
- Prehospital emergency patient care

PREREQUISITES OR CONDITIONS FOR ENROLLMENT:

- Info regarding physicals, background check and drug screening will be passed out on the first day of school
- Completion of an NFPA 1582 Physical
- \$50 BCI and FBI Background Check (Junior year)
- \$50 10 Panel non-DOT drug Screen (Senior year)

COLLEGE CREDIT:

Students may earn up to 18 hours of cost-free college credit.

UNIFORM DETAILS:

Uniforms are ordered through the Apollo website. All students who were accepted prior to the first day of school are expected to be in uniform by September 16th. Students accepted within the first two weeks of school must be in uniform by October 1st. Students who are not in uniform by these deadlines may be sent home or have daily grade reductions for professionalism.
