

Health Science

Health Science offers a basic health care curriculum for first-year students and a diversified curriculum during the senior year. Both tracks prepare students for careers in the medical field.

CORE

In Health Science 1 you will learn basic skills that the vast majority of Health Care workers should have. Health Science 1–Core Curriculum includes:

- Safety practices
- Infection control
- CPR and First Aid
- Vital signs
- Nurse assistant skills
- Medical assistant skills
- Physical therapy skills
- Intro to anatomy and physiology
- Intro to medical terminology
- Clinical experience in long term care facilities
- Personal qualities
- Careers in health care
- Health care systems
- Communications/technology
- Employability skills

ACADEMY

In the Academy you will learn advanced skills related to various health occupations. The Curriculum includes:

- Legal and ethical responsibilities
- Growth and development
- Geriatric care
- Cultural diversity
- Laboratory assistant skills
- Mental Health
- Nutrition and Wellness
- Personal Trainer
- Anatomy and physiology
- Medical terminology
- Employability skills
- Medical office procedures
- Phlebotomy
- Allied Health career exploration
- Nurse Assistant Skills
- Mental Health
